Travel safely every day in the MTR

Message from the MTR

Travel safely every day in the MTR

The MTR considers safety its primary responsibility.

A stringent set of safety standards was followed when we built the system. In addition, we have a comprehensive and exhaustive set of safety standards in place which is strictly adhered to in our daily operation

Maintaining a safe railway system requires not only our dedication but also your support and co-operation

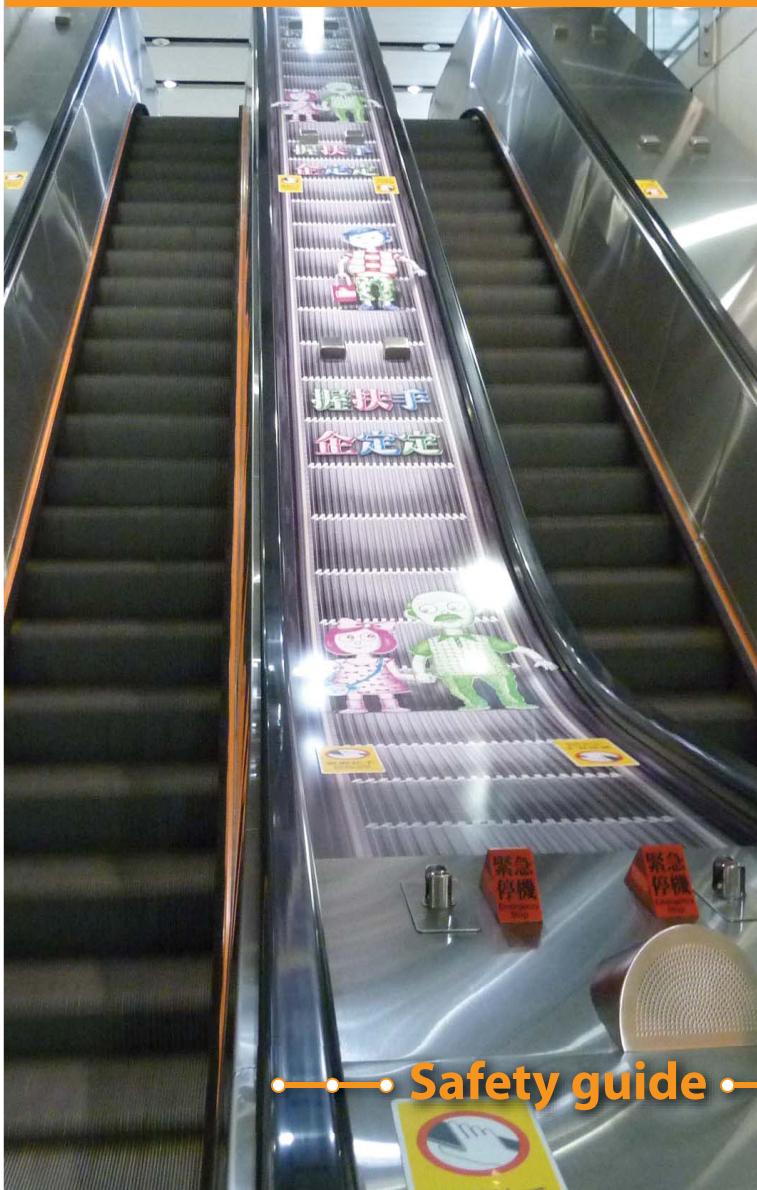

This booklet provides you with necessary information about safety and security in the MTR and will help you understand how you can assist in ensuring a safe journey for both yourself and your fellow passengers. Not following these standards and guidelines could result in personal injury or prosecution under MTR By-laws

Your understanding and co-operation will help us enhance safety awareness in the railway system

As we strive for continuous improvement, you are invited to help us maintain a safe railway and to provide us with any comments or suggestions by using the Passenger Suggestions Form available in every station

We count on your support to make every journey on the MTR safe and enjoyable

For your safety - Hold the handrail

Safety guide

General requirements

- Smoking is not allowed
- Read notices, listen to announcements and always follow instructions
- Take extra care of children and the elderly
- Take extra care during wet weather, as the floor may be slippery
- Never play, jostle, run or push in the MTR
- Contact MTR staff if you need help or assistance and inform staff immediately in the event of an accident or an emergency

- Use safety and emergency facilities correctly
- Never enter an MTR Restricted Area
- Do not release paper sky lanterns anywhere near railway lines
- Avoid being distracted by using a mobile device while walking as this could cause an accident

Don't bring these items into MTR premises:

- *Baggage with total dimensions (i.e. length, width and height) exceeding 170 cm or the length of any one side exceeding 130 cm

- Heavy objects that could be hazardous or cause inconvenience to other passengers
- Dangerous or flammable goods, e.g. paint, thinners, pressurised gas, LP gas (see page 29 for additional items)

- Metallic balloons
- Trolleys loaded with goods
- Animals, birds, or livestock (except guide dogs)

*Except in Airport Express

Entry / Exit gates

Before passing through an entry gate:

- Insert your ticket into the slot or place your Octopus/smart ticket on the processor and check that the arrow is illuminated and the "please enter" message is displayed

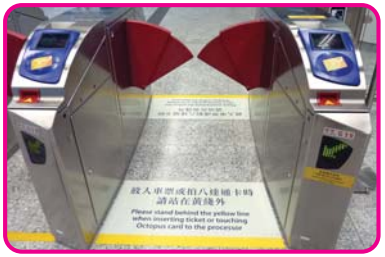

Before passing through an exit gate:

- Insert your ticket/smart ticket into the slot or place your Octopus on the processor and check that the arrow is illuminated and the "please exit" message is displayed
- Do not run through the gate
- Always look after children

Wide gates

Before passing through a wide gate:

- Wait behind the yellow line until the gate area is clear before inserting your ticket into the slot or placing your Octopus /smart ticket on the processor and check that the arrow is illuminated and the "please enter" or "please exit" message is displayed
- If travelling with a baby pram, stay close to the pram when passing through the gate
- Always give priority to passengers in need

Escalators or moving walkways

When stepping onto an escalator or moving walkway:

- Be aware of the direction of the escalator or moving walkway before stepping on
- Take extra care and stand still
- Keep loose clothing and shoelaces clear of the step edges
- Do not wait or stay in the landing area

When riding on an escalator or moving walkway:

- Always hold the handrail
- Always face forwards
- Stand still and don't walk
- Stand clear of the step edges
- Always take extra care if wearing sandals or slippers
- Do not lean against the sides or rest on the handrail
- Do not sit on the escalator step
- Do not run, play or jump
- Take extra care when stepping off

When stepping off an escalator or moving walkway:

- Step off promptly
- Move away from the landing area immediately

General safety guidelines

- Look after children and offer assistance to the elderly
- Always use the lift if travelling with baggage, trolleys or bulky objects, using a baby pram, or a wheelchair
- Do not carry any excessively long object*
- Keep your feet clear of the sides and escalator step edges
- Take extra care when an escalator is stopped and used as a fixed staircase as the height of steps will vary
- In the event of an accident immediately press the Emergency Stop button

Refer to the maximum dimensions on P.4

Lifts

Use the lift if you are:

- An elderly or travelling with children
- A mobility impaired passenger or a wheelchair user
- Travelling with trolleys, baggage, bulky items or baby pram

When using a lift:

- Always give priority to passengers in need
- Allow passengers to exit before entering
- Keep belongings clear of the doors
- Do not overload the lift
- Stand back and keep your body away from the lift doors
- Do not force the lift doors to open
- If the lift stops between floors or the doors fail to open, press the Emergency Alarm button, remain calm and wait for assistance

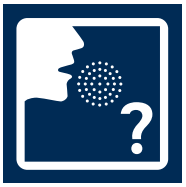

On the platform

- Wait in line and only in areas indicated by directional arrows or queuing lines
- Move along the platform to areas that are less crowded
- Let passengers exit from the train before boarding

- Be aware of the gap between the platform and the train
- If your handbag, backpack or other personal belongings are caught in the closing train doors, let go immediately. Do not continue to hold or attempt to pull trapped objects free

- Do not use your body, handbag, backpack or other personalbelongings to block the train doors, platform screen doors or automatic platform gates as they are closing
- Do not rush in or force your way out of a train when the warning chimes sound or the doors are closing
- Never go beyond the barriers at the ends of platforms
- If help or assistance is required, use the Help Line to speak to MTR staff
- In an emergency, use the Emergency Train Stop button to stop the train

Platforms without platform screen doors or automatic platform gates

- Stand in line in the queuing areas behind the yellow line
- Ensure all belongings are also behind the yellow line
- Take extra care during wet weather, as the floor may be slippery

Platforms with platform screen doors

- Stand in the areas marked by the queuing lines and directional arrows
- Do not lean against platform screen doors
- Do not place your hand on any part of the moving platform screen doors

Platforms with automatic platform gates

- Stand behind the yellow line in the areas marked by the queuing lines and directional arrows
- Do not lean on the automatic platform gates
- Do not let any part of you or your child's bodies protrude beyond the gates
- Never sit children or place any part of your body, bags, cameras or other objects on top of the gates

On the track

Never under any circumstances trespass onto the track

If you accidentally fall from a platform onto the track:

- Remain calm
- Shout for help
- Ensure your body is clear of the rails
- If possible, try to lie in the space underneath the platform edge or the space between the rails and the wall where there is more clearance
- Wait for MTR staff to assist you back onto the platform

If you see someone fall onto the track

- Press the Emergency Train Stop button on the platform wherever available
- Immediately report the incident to MTR staff
- Never attempt to go down onto the track

If something drops onto the track:

- Ask MTR staff for assistance
- Never try to reach down to pick up the object

On the train

- Move into the centre of the train compartment
- Always hold onto the handrail or strap hanger
- Place baggage in designated areas; do not leave it where it might cause an obstruction
- Offer your seat to anyone in need
- Pay attention to on-board announcements and electronic display messages
- Stand clear of the doors; keep hands and fingers clear of the gap between the train and the doors
- Ensure that your body, handbag, backpack or other personal belongings do not block the doors as they are closing
- Do not lean against the grab poles
- Do not sit on the train floor
- Only operate the Emergency Call handle or Call button in an emergency. If you feel unwell, ask station staff for assistance at the next station

Mobility Aids

Safe use of Mobility Aids

- Users of wheelchairs or electric wheelchairs must be mobility impaired or have mobility difficulties
- A child using a wheelchair/electric wheel chair must be accompanied by an adult at all times in the system
- Mobility aids propelled by a combustion engine are not permitted anywhere on MTR premises
- The total weight of a wheelchair/electric wheelchair and its user shall not exceed 200 kg
- The dimensions of a wheelchair/electric wheelchair shall not exceed 1200mm x 700mm

Safety in station premises and safe travelling on trains

- Electric wheelchair users should move at a speed of no more than 6 kilometres per hour inside stations, that is equivalent to a walking pace
- Wheelchair users must use passenger lifts or stair lifts to move between floor levels. Escalators must not be used.
- Wheelchair users should be cautious when approaching the location of pillars and corners as other passengers may not be aware of wheelchair users approaching and may not be able to move out of the way in time to avoid an accident.
- Please be aware of the gap between the platform and the train when boarding or alighting. Portable ramps allowing wheelchair users to move easily between the platform and train are provided at MTR stations.
- After boarding, always park the wheelchair in the multi-purpose space and stabilize it by use of the chair's locking device

Be safe and considerate
Never force your way into the train

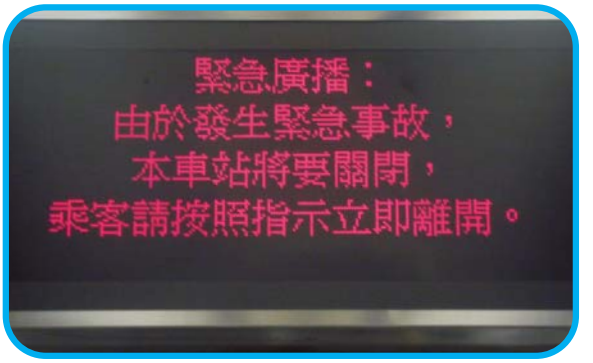

Station emergency equipment

(Stations are equipped with different types of standard emergency equipment)

Passenger Information Display System

- In an emergency, the Passenger Information Display System will show specific evacuation messages

Illuminated exit signs

- In an emergency, follow the evacuation route indicated by the illuminated exit signs

Fire alarm call points

- In the event of a fire, break the glass at the nearest fire alarm call point

Fire hydrants, hose reels and fire extinguishers

- Use only in accordance with specific instructions and only when safe to do so

Smoke detection system, smoke extraction system, ventilation system, sprinkler system

- This equipment will operate automatically in the event of fire or dense smoke

Emergency Stop button on escalators or moving walkways

- Emergency Stop buttons are located on all escalators and moving walkways for use in an emergency

Platform emergency equipment

(Platforms are equipped with different types of standard emergency equipment)

Emergency Train Stop

- Emergency Train Stop buttons or plungers are located on every platform

Platform Screen Doors – emergency escape door

(From trains to platforms)

- Emergency escape doors for evacuating passengers from a train to a platform are located at either end of the platform
- They can be opened manually by pressing down the push bar or lever

Help Lines

- Help Lines will connect you directly to staff in the station control room

Train emergency equipment

(Trains are equipped with different types of standard emergency equipment)

Emergency Call handle or Call button

- In an emergency, operate the Emergency Call handle or the Emergency Call button, and then use the microphone to speak to the train captain

- If you or another passenger feels unwell, ask station staff for assistance at the next station

Ventilation windows

- In an emergency, windows can be opened for ventilation but only after you are instructed that it is safe to do so by the train captain

Fire extinguishers

- Fire extinguishers are provided inside trains
- Follow instructions provided and use only when safe to do so

Emergency exit doors

- Emergency exit doors on trains are for use only under the direction of MTR staff or Emergency service personnel in the event of an evacuation

Tsuen Wan Line, Kwun Tong Line, Island Line and Tseung Kwan O Line

Tung Chung Line, Airport Express

Kwun Tong Line

West Rail Line, East Rail Line and Ma On Shan Line

East Rail Line

Emergency door release

- This is used only under the direction of the train captain in the event of an evacuation from the train compartment
- Passengers must always be aware of the immediate surroundings before leaving the train

Emergency procedures

Evacuation from a station

- Remain calm
- Pay attention to station announcements and electronic display messages
- Use the nearest exit as directed by MTR staff, Emergency services personnel or as indicated by illuminated exit signs to immediately exit from the station
- Use the nearest escalator or staircase to exit
- Do not use the lift

Evacuation from a train

- Remain calm
- Pay attention to train announcements and electronic display messages
- Evacuation from a train will normally take place at the nearest station
- Evacuation from a train between stations will only take place under exceptional circumstances
- Follow the instructions and directions from MTR staff or Emergency services personnel

Passengers with disabilities and those who require assistance

- Ask for assistance from other passengers
- If safe to do so, wait for MTR staff or Emergency services personnel

Emergency procedures

Fire

- Inform MTR staff immediately if you see smoke / fire or smell burning
- Offer assistance to anyone in need or help move persons with disabilities to a safe location

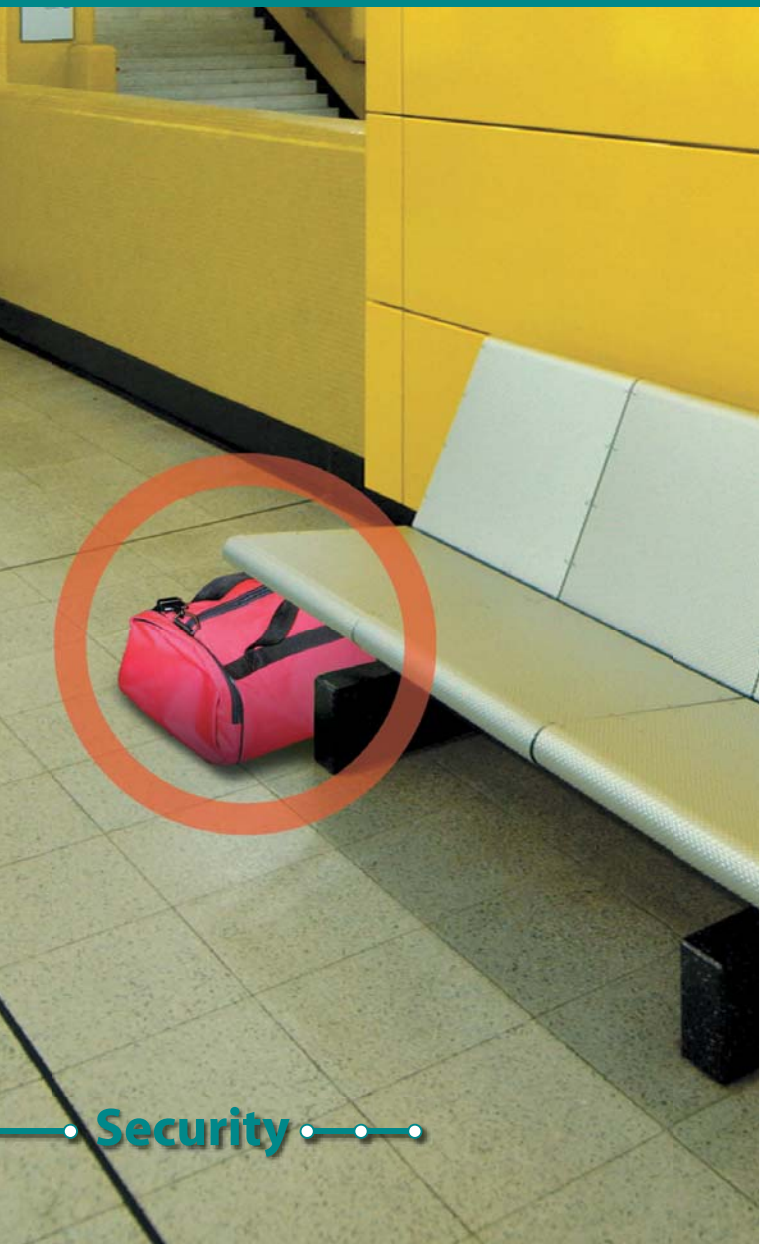

Fire on a train

- Report the fire to the train captain immediately by using the Emergency Call handle or Emergency Call button and speaking into the microphone
- If safe to do so, use the fire extinguisher
- Do not open the ventilation windows unless instructed to do so
- In the event of a train evacuation, follow the instructions given by MTR staff or Emergency services personnel
- If there is a fire outside the train, stay inside the train compartment, remain calm and follow the instructions of MTR Staff

Fire in a station

- Report the fire to MTR staff or operate the fire alarm call point (break glass)
- Follow the instructions of MTR staff or Emergency services personnel to evacuate the station
- Do not use the lift

Be alert !
Suspicious objects

Dangerous Goods

Under the Dangerous Goods Ordinance, Dangerous Goods are classified into 10 categories. Some examples are listed below:

Category 1:	fireworks, fire crackers
Category 2:	LP gas, pressurised gas cylinders*
Category 3:	acids, battery fluid
Category 4:	paint remover, cyanides
Category 5:	thinners, kerosene, petroleum (or diesel)
Category 6:	raw materials of active metals (calcium, magnesium, etc)
Category 7:	peroxides (such as concentrated hydrogen peroxide)
Category 8:	combustible industrial raw material
Category 9:	white or yellow phosphorus
Category 9a:	raw polystyrene foam, raw rubber pellets, rubber tyres
Category 10:	chemical processing raw materials (hardening agent for glassfibre and epoxy products)

MTR staff have the legal right to refuse entry to any part of the MTR to any passenger carrying Dangerous Goods or permitted goods in large quantities

** Passengers who need an oxygen cylinder for breathing purposes can carry an oxygen cylinder which does not exceed 1.25 liters in volume and is stored in a proper container.*

Closed Circuit Television (CCTV)

CCTV cameras are installed in the MTR premises (including station entrances, concourse, entry/exit gates, platforms and in-train compartments) for security and surveillance purposes. Notices are posted to inform MTR users that CCTV surveillance cameras are in operation. The storage, access and retrieval of CCTV records are subject to and regulated by procedures and guidelines in compliance with the personal data protection principles

Keep a watchful eye and take appropriate action

While all public areas of the MTR are regularly patrolled by MTR staff and the Police, we still need your assistance to keep the railway safe

If you witness a crime or see something suspicious such as:

- Passengers behaving oddly
- Unattended baggage, backpack, parcels, or other objects
- Passengers carrying dangerous or flammable goods
- Any incident or anything you find suspicious or unusual

Report it to MTR staff or the Police immediately.
